Vacation Rentals

You have the location Pin above. The GPS will take you to the house. It's not a big building, you've actually rented a house.

The house has a metal gate so you will not see the facade of the house itself. This is to give our guests more privacy. And it has exterior cameras monitored by the owner of the property for your safety.

You will be able to open the white fence and enter, it is always open, but you will find a lock box outside the main door of the house and the keys will be inside it. Your concierge must send you the code in advance. If you haven't received it yet, don't hesitate to ask.

Parking and trash

If you drive a car, you can park it after the metal gate. There you will find the garbage containers.

Please let us know if there is anything we can do to make your stay with us wonderful and unforgettable. Ask us about the Chefs and Massages services if you want to improve your experience.

Enjoy your stay!
